

REMARKS

Applicants wish to thank Examiner Teskin for the helpful and courteous discussion with Applicants' Representative on May 14, 2009. The Office Action of April 20, 2009, was discussed. Applicants' Representative noted that the product sheet mentioned at page 11 of the Amendment filed March 31, 2009, was indeed filed in the Patent Office on March 31, 2009. However, the document was initially mischaracterized in PAIR as a Rule 131 Declaration. Applicants' Representative has contacted the EBC office (Electronic business Center) of the Patent Office. As a result, **PAIR was corrected by the Patent Office and shows now two (2) "Miscellaneous Incoming Letter" documents. One of these two documents is the product data sheet mentioned in the Amendment of March 31, 2009.**

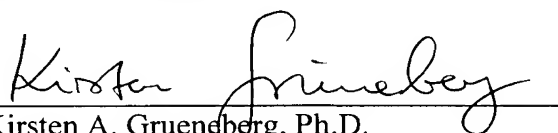

Examiner Teskin mentioned that the same correction was apparently not made in the computer system, that is accessed by the Examiner. Thus, the office is requested to make this correction.

In addition, another copy of the product data sheet is filed herewith.

This application presents allowable subject matter, and the Examiner is kindly requested to pass it to issue. Should the Examiner have any questions regarding the claims or otherwise wish to discuss this case, he is kindly invited to contact Applicants' below-signed representative, who would be happy to provide any assistance deemed necessary in speeding this application to allowance.

Respectfully submitted,
